SUBJECT: BEATLE & APPLE ROAD MAP

MEMO

Attached is a copy of the Beatle and Apple Road Map which I prepared in June 1976. It should be of use in determining dates of contracts, complaints and product issued through that date for both Beatles and non-Beatles product and contracts.

SUBJECT: BEATLE AND APPLE ROAD MAP

Attached is a road map from July 1, 1968, the effective date of the first Apple contract, to the present showing the timing of new product, claims, negotiations, credits, and other important dates and data.

You will note under Apple (Calif.) I have shown only the product bearing the names of one of the Beatles as performers (Lennon and Harrison only--there were none with McCartney or Starr).

As time and discovery permits, I will update the map to add other pertinent data. Your suggestions would be appreciated.
